 Tang is available for general medical care for all Berkeley students, seven days a week, regardless of insurance status. Students may be treated for injury, prevention of sexually transmitted infections and pregnancy, with specialty care (e.g. forensic medical exams) coordinated with community providers. Medical costs are covered for student survivors of sexual violence. For after-hours assistance call 510-643-7197.

EVIDENCE COLLECTION

If a survivor thinks that they may want to pursue criminal charges immediately or in the future, a forensic exam conducted soon after an assault may yield valuable evidence. If a survivor is interested in having a forensic exam:

- It's best not to shower, bathe, wash hands, eat, drink or brush teeth.
 - If possible, place each item of clothing in a separate paper bag (no plastic).
 - Leave the area where the assault occurred undisturbed.
- Survivor can call 911 for a police response and accompaniment to medical care. Evidence collection is done in the county where the assault occurred, usually within the first 72 hours following an assault (the earlier, the better).

OBTAINING A PROTECTIVE/RESTRAINING ORDER

A survivor may also choose to obtain a protective/restraining order. Protective orders are civil court orders to protect survivors who have experienced or are reasonably in fear of physical violence, sexual assault, or stalking by another individual. The Family Violence Law Center can offer assistance with this process and can be reached at (510) 208-0220 .
